

Product Information

A PRODUCT OF THE VALVOLINE COMPANY A DIVISION OF ASHLAND INC.

PYROIL POWER STEERING FLUID

- **Keeps Seals and O-rings Pliable**
- **Prevents Corrosion, Oxidation, and Wear**
- **Use Year-Round**
- **Helps Stop Leaks**

Applications

Pyroil Power Steering Fluid meets the following specifications: GM 9985010, Ford ESW-M2C128 C and D, and Chrysler MS-5931E. Not recommended for use in Honda power steering units.

Power Steering Fluid Versus Transmission Fluid

Use the fluid recommended in the owner's manual. Some power steering units are designed to use transmission fluid, while others are designed to use power steering fluid. Using the wrong fluid can cause performance deficiencies such as foaming or improper lubrication. Never use power steering fluid in transmissions or as an engine oil.

Easy To Use

Check the level of the power steering fluid at least once a year. Although the fluid level may be checked hot or cold, it should be checked while hot if possible. If the power steering fluid is low, check the owners manual for proper fluid specifications before adding fluid. Do not overfill.

Technical Data:

Appearance	Clear, Amber Liquid
Flash Point, COC	347 °F minimum
Pour Point, max	-42°C
Viscosity @ 100°C	7 - 8 cSt
Viscosity @ 40°C	35 - 40 cSt

This information only applies to products manufactured in the following location(s): USA, Canada.
