

Product Information

A PRODUCT OF THE VALVOLINE COMPANY A DIVISION OF ASHLAND INC.

VPS COMPLETE FUEL SYSTEM TREATMENT

- Restores maximum power and performance
- Eliminates rough idle, hesitation and knocking due to deposits
- Cleans and protects the entire fuel system
- Removes deposits from combustion chambers, intake valves & ports and fuel injectors

VPS Complete Fuel System Treatment is a premium product containing synthetic cleaners designed to clean the entire fuel system. Maximum power and performance is restored by removing the deposits that interfere with proper engine operation. Removing combustion chamber deposits can reduce the need for gasoline with a higher octane rating. Fuel injectors, intake valves, manifolds, ports and carburetors are cleaned by **VPS Complete Fuel System Treatment**. Clean fuel systems mean lower emissions. Safe for catalytic converters and oxygen sensors. Contains no alcohol.

To insure good mixing, add entire contents to fuel tank prior to fill up. Ten fluid ounces treats up to 20 gallons of gasoline.

Technical Data:

Appearance	Clear, Amber Liquid
Specific Gravity	0.876 @ 60°F
Flash Point, TCC	120°F
