

Product Information

A PRODUCT OF THE VALVOLINE COMPANY A DIVISION OF ASHLAND INC.

VALVOLINE PROFESSIONAL SERIES FUEL RAIL CLEANER

- Removes Deposits from Fuel Injectors immediately
 - Removes Deposits from Intake Valves
- Removes Deposits from Combustion Chambers
 - Uses Synthetic Cleaners
 - Restores Power and Performance
- Safe for Catalytic Converters and Oxygen Sensors

VALVOLINE PROFESSIONAL SERIES FUEL RAIL CLEANER is designed for professional use only. Detergents and cleaner added to the fuel tank may require up to three or four hundred miles of driving to remove troublesome deposits. **VALVOLINE PROFESSIONAL SERIES FUEL RAIL CLEANER** allows professionals to remove deposits quickly and then diagnose any mechanical failures if fuel related problems persist after cleaning. **VALVOLINE PROFESSIONAL SERIES FUEL RAIL CLEANER** contains powerful synthetic cleaners to clean fuel injectors immediately and removes deposits from intake valves and combustion chambers. These powerful synthetic cleaners are injected directly into the fuel system without being diluted with gasoline like cleaners added to the fuel tank.

VALVOLINE PROFESSIONAL SERIES FUEL RAIL CLEANER is available in two versions, either a pressurized can or an unpressurized liquid. The unpressurized liquid is poured into a pressure vessel and then shop air is used to power the process.

Technical Data

Appearance	Clear amber liquid
Specific gravity @ 60 F	0.860
Flash point, TCC, F (liquid)	42
